B. NORMAL ACTIVITIES

1. The Integrated Program

a. Because of the move to the Broyhill Building and other dislocating circumstances, none of the training officers has visited [REDACTED] recently. Someone will go down next week. We assume that things are going well because we have had no reports to the contrary.

2. The first meeting of the internal panel to consider candidates for the January 1964 Class has been held. Four candidates were approved and two others tentatively approved depending on circumstances which

[REDACTED]
during the discussion of two cases.]

3. So far candidates who first have their medical examination at the Headquarters Building have arrived at Broyhill about 10:00 in the morning. If this favorable condition continues our interview schedule should work about as well as it did when we were in Headquarters.

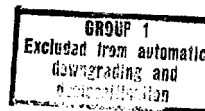

4. [REDACTED] has been permanently transferred to FE Division.
